Parks & Beaches

Ha Ha Tonka State Park is located five miles SW of Camdenton on State Road D and contains over 3,600 acres on the Niangua Arm of the Lake of the Ozarks. This once private castle was completed in 1922 and gutted by fire in 1942. The natural surroundings and equal impressive castle ruins were opened to the public as a State Park in 1978. There are 12 hiking trails and numerous lake front picnic areas, two of which are shelters that can be rented for events, and a playground. Trail and Nature Area Guides are available at the visitor's center at the park entrance, along with outside exhibits. One of Missouri's largest springs is located in the park and feeds an average of 48 million gallons of water a day into the lake. Visitors for the day can easily arrive by boat or car (no overnight camping in the park is allowed).

Lake of the Ozarks State Park is Missouri's largest State Park with 17,441 acres, 85 miles of shoreline, two public beaches, boat launching areas, hiking trails, horseback riding stable and four organized youth camps. Bring a picnic dinner to enjoy after swimming at the free sand beaches. For large groups, reserve a picnic shelter for a \$40 fee to guarantee its use or take your chances and use it on a first-come basis when not reserved. Launch your own boat at available ramps or rent a boat at Public Beach #1 and Grand Glaize Beach. Fish free from a dock with crappie beds, as long as you have the appropriate fishing license. Discover the unusual natural features along the park's lakeshore on Lake of the Ozarks Aquatic Trail. This unique "trail" designed for boaters has stops marked at buoys. A free booklet keyed to these buoys explains the significance of each of the 14 marked shoreline highlights, which is available at the park office. Several overnight camping and RV sites are available.
